- In this page choose try now option

Note :

This page is only accessible to those attempting to download the 2022 version.

Step 4 :

- Choose Developer edition under free download options that are presented in the website.
- Open the Setup file that will be downloaded after choosing

The screenshot displays the Microsoft SQL Server 2022 download page. It features two main sections: 'Developer' and 'Express'. The 'Developer' section includes an icon of a computer monitor with code symbols, the title 'Developer', a description of it as a full-featured free edition for development and testing, and a 'Download now' button highlighted with a red dashed border. The 'Express' section includes an icon of a tablet and smartphone with charts, the title 'Express', a description of it as a free edition ideal for development and production, and a 'Download now' button. At the bottom, a blue progress bar is visible, and a taskbar at the very bottom shows a file named 'SQL2022-SSEI-Dev.exe' with a red border around it, indicating it has been downloaded.

Developer

SQL Server 2022 Developer is a full-featured free edition, licensed for use as a development and test database in a non-production environment.

[Download now](#)

Express

SQL Server 2022 Express is a free edition of SQL Server, ideal for development and production for desktop, web, and small server applications.

Getting Started with SQL Server

Thank you for installing Microsoft SQL Server. If you are connecting to SQL Server from a remote machine, then you need to complete the prerequisites mentioned in the "Before you get started" file located in the Resources folder.

Pause

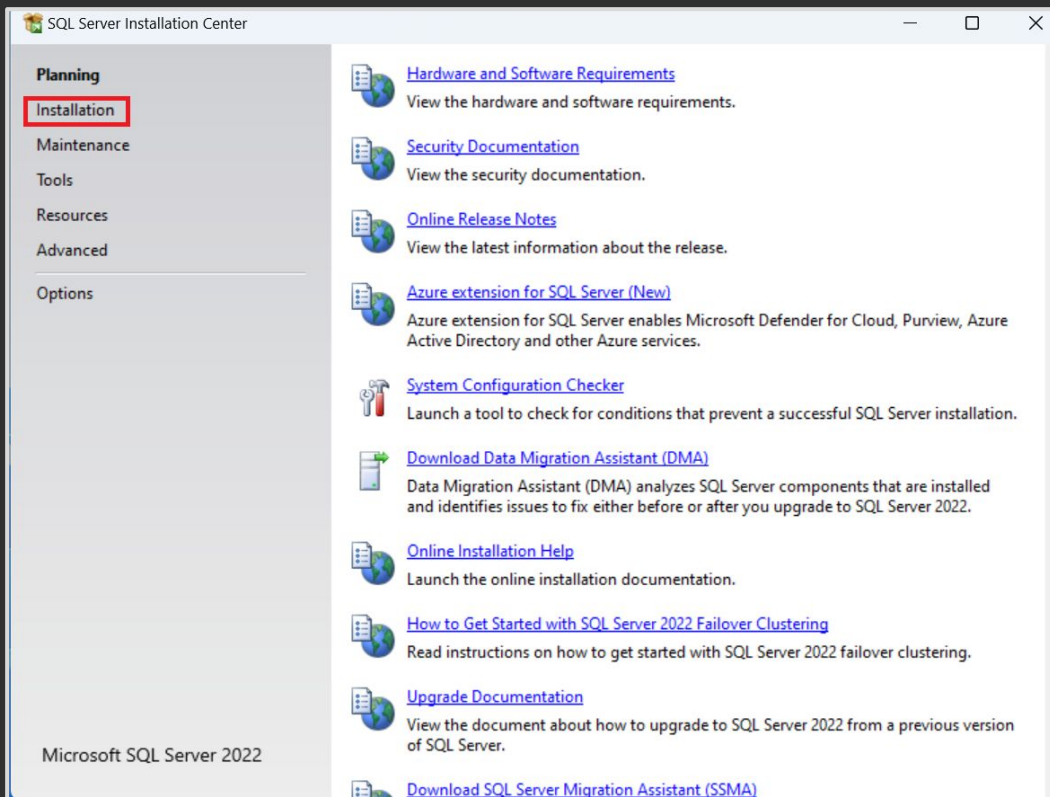

Cancel

16.2211.5693.3

Note :

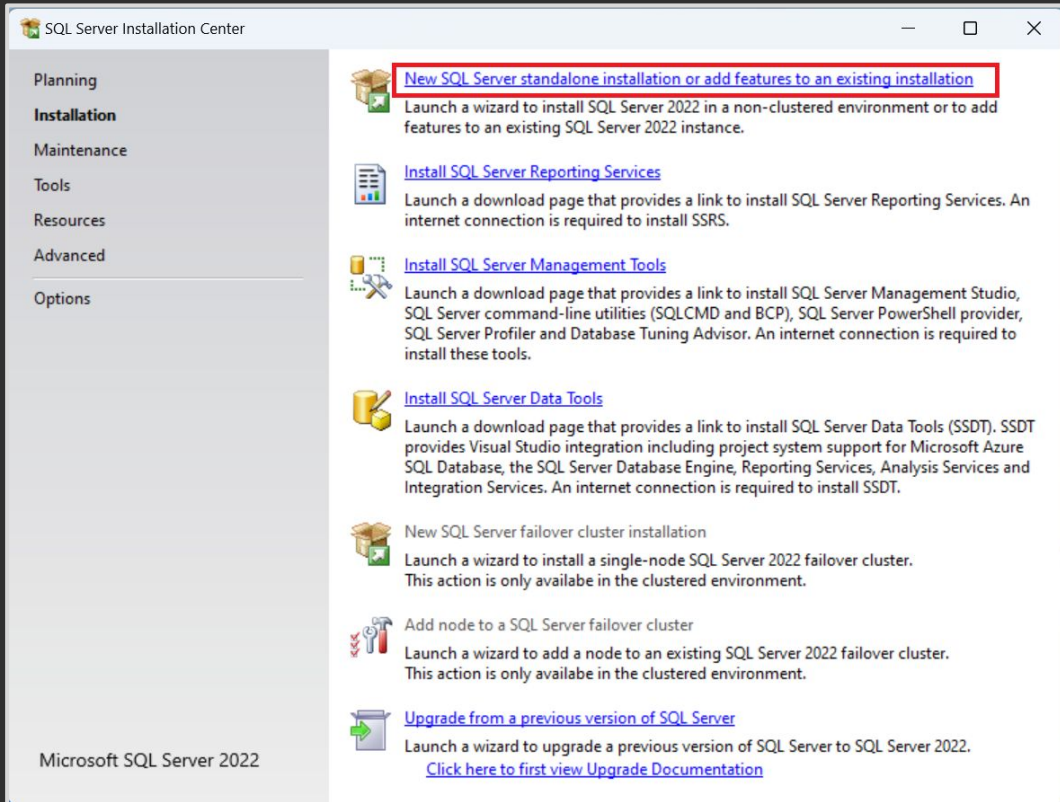

SQL Server Installation Center window will open automatically upon completion of installation.

SQL Server Installation Center

Step 7 :

- Select Installation

Step 8 :

- Select the first option i.e “ New SQL Server standard installation or add features to an existing installation ”.

Note :

- SQL Server setup window will be opened automatically upon selection
- SQL Server Installation center window will stay open in the background.

SQL Server 2022 Setup

Edition

Select the edition of SQL Server 2022 you want to install.

Edition

- License Terms
- Global Rules
- Microsoft Update
- Product Updates
- Install Setup Files
- Install Rules
- Azure Extension for SQL Server
- Feature Selection
- Feature Rules
- Feature Configuration Rules
- Ready to Install
- Installation Progress
- Complete

Select an edition of SQL Server to install. You can choose to either use a SQL Server license that you have already purchased by entering the product key or choose pay-as-you-go billing through Microsoft Azure. You can also specify a free edition of SQL Server: Developer, Evaluation, or Express. Evaluation has the largest set of SQL Server features, as documented in SQL Server Books Online, and is activated with a 180-day expiration. Developer edition does not have an expiration, has the same set of features found in Evaluation, but is licensed for non-production database application development only. To upgrade from one installed edition to another, run the Edition Upgrade Wizard.

☒ Specify a free edition:

Developer

☐ Use pay-as-you-go billing through Microsoft Azure:

Warning: To enable this option, you must have an active Azure subscription that you will be required to provide along with a resource group, Azure region, and tenant ID later in setup. For more information, see <https://aka.ms/ArcEnabledSqlPAYG>.

Standard

☐ Enter the product key:

- - - -

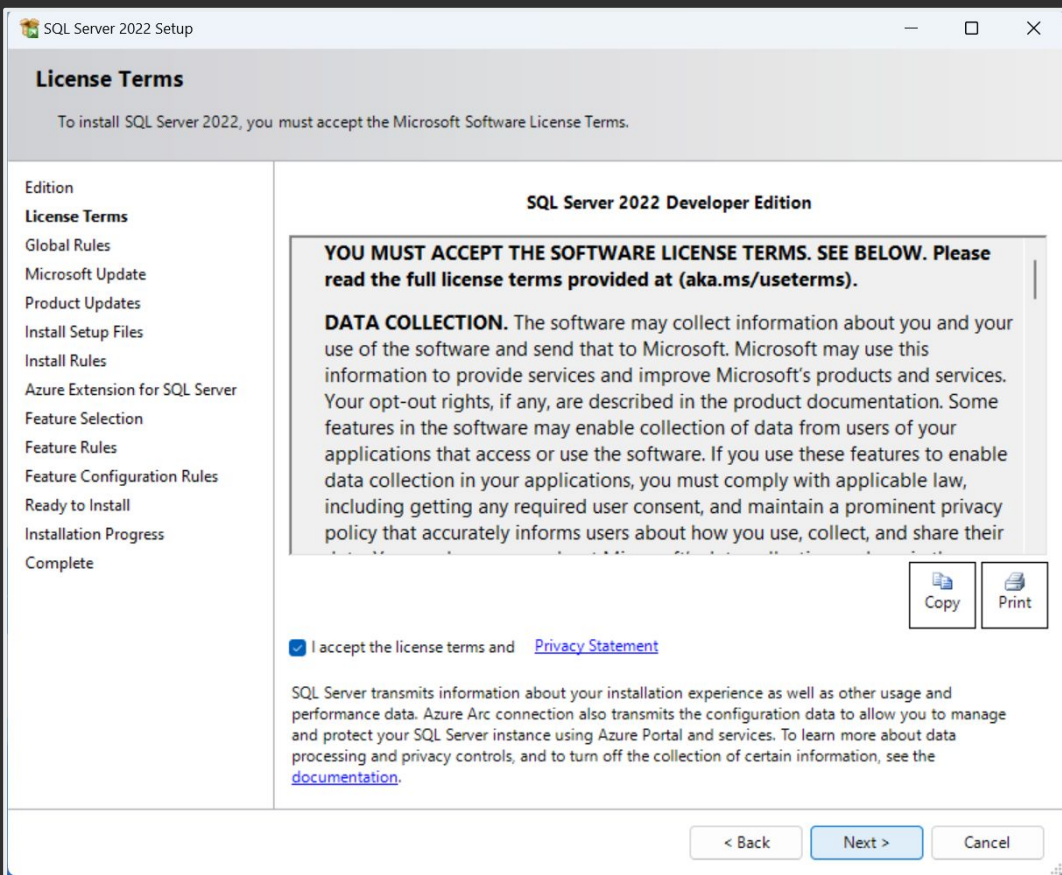

☐ I have a SQL Server license with Software Assurance or SQL Software Subscription

☐ I have a SQL Server license only

< Back Next > Cancel

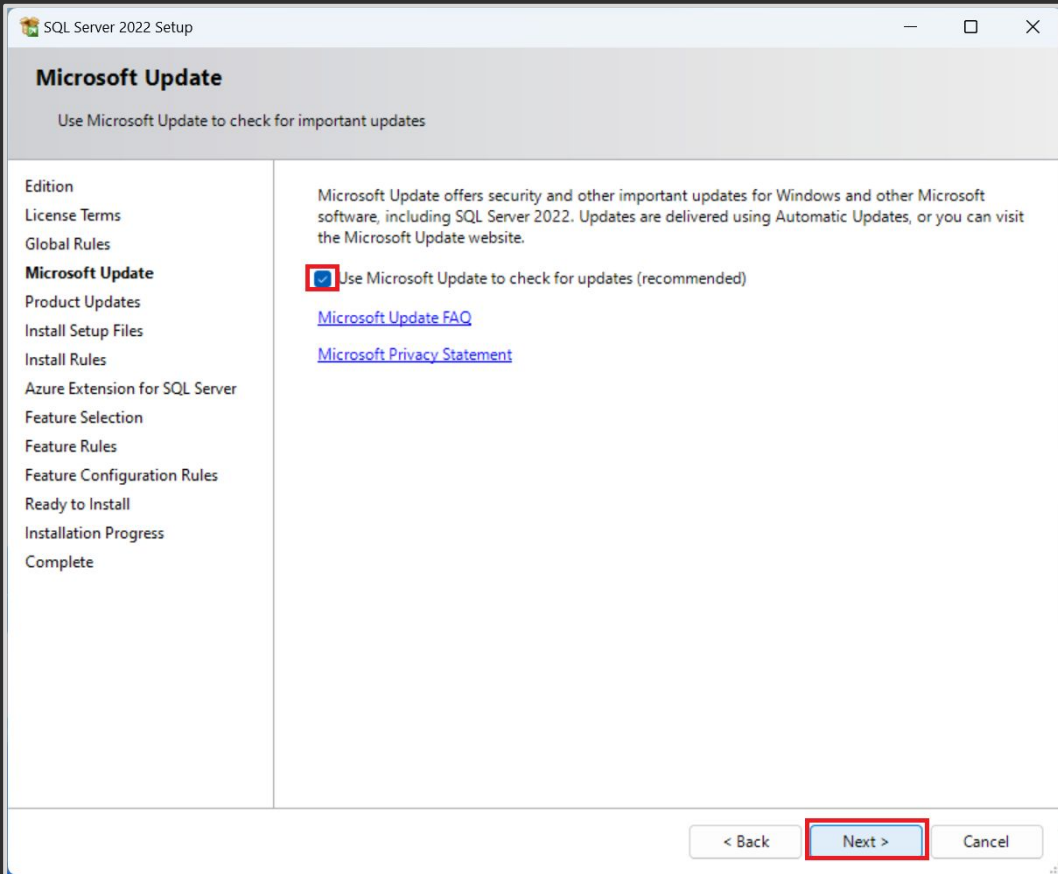

Step 9 :

- Select Developer under “Specify a free edition”.
- Proceed to Select “Next”.

Step 10 :

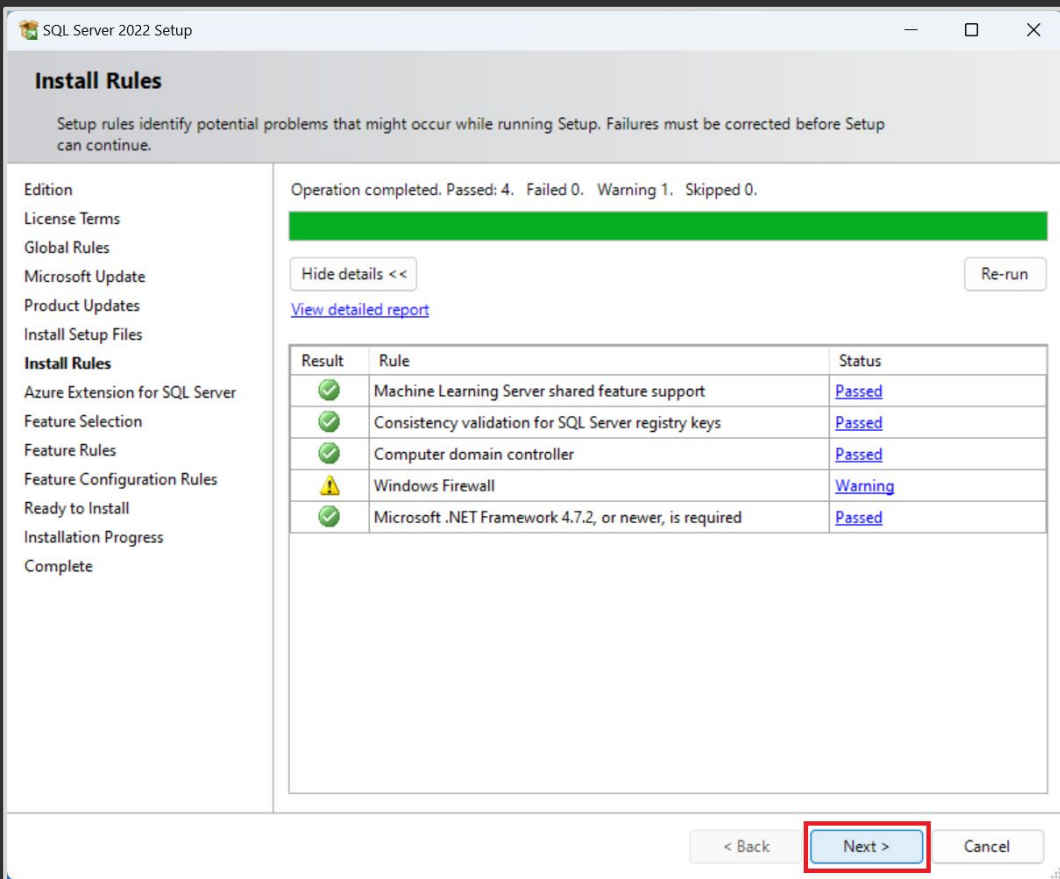

- Accept the terms and condition and proceed to click on next.

Step 11 :

It is Optional :

- Select “Use Microsoft Update to check for updates” checkbox if required.
- Then select “Next”.

Step 12 :

- Ignore the “Windows Firewall” warning.
- Click on “Next”

☐ Azure Extension for SQL Server

To install Azure extension for SQL Server, provide your Azure account or a service principal to authenticate the SQL Server instance to Azure. You also need to provide the Subscription ID, Resource Group, Region, and Tenant ID where this instance will be registered. For more information for each parameter, visit <https://aka.ms/arc-sql-server>.

☐ Use Azure Login

☒ Use Service Principal

Azure Service Principal ID*

Azure Service Principal Secret*

Azure Subscription ID*

|---------------|-------------|----------|---------|---------|

< Back

Next >

Cancel

Step 15 :

- Select the instance type (e.g. "Default instance," "Named instance").
- If "Named instance" is selected, enter the unique name for the instance.
- Select "Next".

SQL Server 2022 Setup

Server Configuration

Specify the service accounts and collation configuration.

Service Accounts Collation

Microsoft recommends that you use a separate account for each SQL Server service.

| Service | Account Name | Password | Startup Type |
|----------------------------|---------------------------|----------|--------------|
| SQL Server Agent | NT Service\SQLAgent\$M... | | Manual |
| SQL Server Database Engine | NT Service\MSSQL\$MSS... | | Automatic |
| SQL Server Browser | NT AUTHORITY\LOCALS... | | Automatic |

☐ Grant Perform Volume Maintenance Tasks privilege to SQL Server Database Engine Service

This privilege enables instant file initialization by avoiding zeroing of data pages. This may lead to information disclosure by allowing deleted content to be accessed.
